The screenshot shows the Spotify Developer Dashboard homepage. At the top, there's a banner with a person's face and the text "Create & manage your Spotify integrations.". Below the banner, a sub-headline reads "Meet your dashboard. Log in to create new integrations and manage your Spotify credentials. Just connect Spotify Developer to your Spotify account." A green "LOG IN" button is on the left, and a link "Don't have an account? Sign up for a free Spotify account here." is on the right. The browser's address bar shows "developer.spotify.com/dashboard/".

Refimage2:

The screenshot shows the "CREATE AN APP" form on the Spotify Developer Dashboard. The form fields are: "App name" (Example), "App description" (Example app), and a checkbox "I understand and agree with Spotify's [Developer Terms of Service](#) and [Branding Guidelines](#)". There are "CANCEL" and "CREATE" buttons at the bottom. On the left, a sidebar shows a card for "Spotbot Discord" with a CLIENT ID placeholder. The browser's address bar shows "developer.spotify.com/dashboard/applications".
